Product Environmental Profile

Guide rail set, Lexium MC12 multi carrier

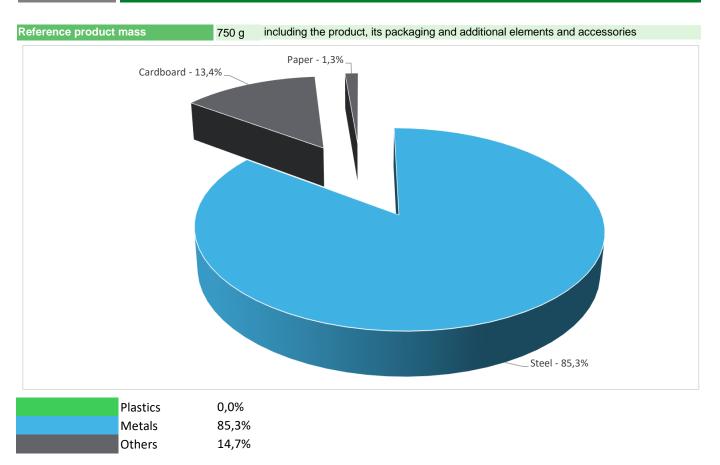

ENVPEP2111004 V1 02/2022

General information

Representative product	Guide rail set, Lexium MC12 multi carrier - LXMMCRS0A06S100
Description of the range	Lexium MC12 multi carrier is an innovative transport system to be used in machines. It uses latest linear motion technology to move products individually through the machine. These individual movements allow for new machine designs making machines faster, more flexible and space efficient. This range consists of LXMMCRS*A and LXMMCRA*A guide rails for Lexium multi carrier long stator motors. Same curve and straight guide rails are installed at top and bottom of the straight and curved long stator motor segments, used to handle the carriers. Guide rails are available in different length and can be combined freely.
	The environmental impacts of this referenced product are representative of the impacts of the other products of the range which are developed with a similar technology.
Functional unit	To hold straight or curve segment for Lexium multi carrier long stator motors for 20 years, for one

Constituent materials

ENVPEP2111004_V1 02/2022

Products of this range are designed in conformity with the requirements of the RoHS directive (European Directive 2011/65/EU of 2 January 2013, amended in March 2015, 2015/863/EU and in November 2017, 2017/2102/EU) and do not contain, or only contain in the authorised proportions, lead, mercury, cadmium, hexavalent chromium or flame retardants (polybrominated biphenyls - PBB, polybrominated diphenyl ethers – PBDE), Bis (2-ethylhexyl)phthalate - DEHP, Benzyl butyl phthalate - BBP, Dibutyl phthalate - DBP, Diisobutyl phthalate - DIBP) as mentioned in the Directive.

Details of ROHS and REACH substances information are available on the Schneider-Electric Green Premium website http://www2.schneider-electric.com/sites/corporate/en/products-services/green-premium/green-premium.page

(1) Additional environmental information

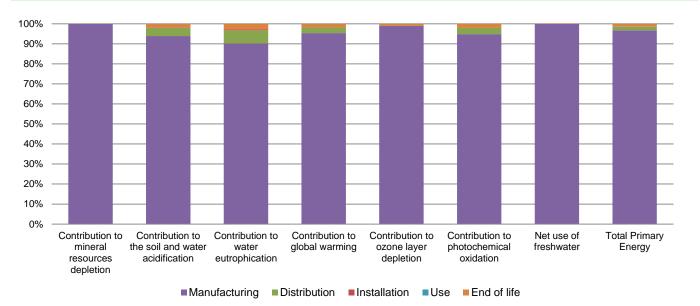

Ti	ne Guide rail set, Lexium MC12 multi carrier presents the following relevent environmental aspects					
Manufacturing	Manufactured at a Schneider Electric production site ISO14001 certified					
	Weight and volume of the packaging optimized, based on the European Union's packaging directive					
Distribution	Packaging weight is 110 g, consisting of cardboard (91%) and paper (9%)					
	Product distribution optimised by setting up local distribution centres					
Installation	The product does not require any specific installation.					
Use	The product does not require special maintenance operations.					
	End of life optimized to decrease the amount of waste and allow recovery of the product components and materials					
End of life	No special end-of-life treatment required. According to countries' practices this product can enter the usual end-of-life treatment process.					
	Recyclability potential: Based on "ECO'DEEE recyclability and recoverability calculation method" (version V1, 20 Sep. 2008 presented to the French Agency for Environment and Energy Management: ADEME).					

P Environmental impacts

Reference life time	20 years					
Product category	Other equipments - Passive product - non-continuous operation					
Installation elements	No special components needed					
Use scenario	none	none				
Geographical representativeness	Europe					
	Manufacturing	Installation	Use	End of life		
Energy model used	Energy model used: Germany	0	0	0

^{*} represents less than 0.01% of the total life cycle of the reference flow

Life cycle assessment performed with EIME version EIME v5.9.3, database version 2020-12 in compliance with ISO14044.

The manufacturing phase is the life cycle phase which has the greatest impact on the majority of environmental indicators (based on compulsory indicators).

According to this environmental analysis, proportionality rules may be used to evaluate the impacts of other products of this range.

Please note that the values given above are only valid within the context specified and cannot be used directly to draw up the environmental assessment of an installation.
