

PRODUCT INFORMATION SHEET

10 mm universal drill bit

Product description

The drill bit for drilling in various materials such as wood, plywood, concrete, plastics, ceramic tiles, soft metals, steel, brick, etc. The precise blade is made of high-quality tungsten carbide. The geometry of the spiral accelerates the removal of cutters and ensures high productivity. A cylindrical handle with three planes improves the secure positioning of the drill bit in the device. The design, material, and workmanship make the drill bit efficient, durable, and resistant to damage and blunting.

Characteristics

Material: YG6X; application: universal, including metal, plastic, concrete; handle: cylindrical with three planes; size: 10 mm.
