

Data Sheet

19" panel, 24xRJ45 for STP socket Cat.6A (1U) blue, with shelf, code: DCN/3012KNL-BLCAT6A

Description and Technical Characteristics of the Product:

EmitterNet modular patch panel, dedicated for STP Cat.6A sockets.

The panels are equipped with a shelf to arrange cable routes. The shelf has holes for attaching cables with cable ties. It attaches directly to the panel (without screws).

Cable management is facilitated by port markings and a text box integrated into the panel.

Standard 19", 1U height - panel that can hold 24 keystone modules.

The metal structure provides galvanic connection to the shields of individual modules.

Markings:

19" panel, 24xRJ45 for STP socket Cat.6A (1U) blue, with shelf, **Code:** DCN/3012KNL-BLCAT6A

Products compatible with the socket:

sockets:

STP RJ45 Cat.6 keystone blue, tool-free, slim code: EM/SQKSS-C6A

cap:

modular panel cap, code: DC/3020BS-0N-BK

Technical parameters:

Mechanical:

colour - blue

dimensions (W x H x D): 482x44x90mm

weight - 1950g
